Searching for Geographies

- There are several different ways to search for Geographies:
  - Entering a geography name in the search bar is the easiest way to search (see Example 1).
  - Using the Geography Filter Options is another way to search that provides more options but may require some experimentation (see Example 2).
  - In Geography Filter Options, clicking on Summary Level, clicking on 250 – AIA/ANA/HHL, you will see 1,066 Tribal Geographies.

AGID

Administration for Community Living

AGing Integrated Database (AGID)

Administration on Aging: AGing Integrated Database (AGID)

The AGing Integrated Database (AGID) is an on-line query system based on ACL-related data files and surveys, and includes population characteristics from the Census Bureau for comparison purposes. The four options or paths through AGID provide different levels of focus and aggregation of the data – from individual data elements within Data-at-a-Glance to full database access within Data Files.

Before you begin your query, please review AGID's Resources section with an "About AGID" overview, descriptions of data sources, and frequently asked questions (FAQs). Even experienced AGID users may find the Resources documentation helpful. At any time, you may select from one of the four options below and follow the system prompts. If you need additional assistance, please complete an AGID Support request from the link found at the bottom left of every AGID screen.

Data-at-a-Glance

Quick estimates in map, chart, or tabular form

Custom Tables

Custom Tables allows users to produce detailed, multi-year tables in a step-by-step process and output the results in print or spreadsheet form. Users have the ability to select only those data elements applicable to their needs, and to further refine their results based on demographic stratifiers or geographic locations that are meaningful to their application. In addition, multiple years of data can be selected to analyze trends across time, data can grouped by year or geography, and simple sorting tools have been incorporated to rank individual data elements across both time and geography.

To begin your query, please select the desired database from the list below:

AoA Databases

State Program Reports (SPR) 2005-2017

Data on the supportive services programs and congregate and home delivered meals programs under Title III of the Older Americans Act, as well as the Title VII Elder Rights program.

- SPR Custom Tables

National Ombudsman Reporting System (NORS) 2000-2016

Information on the efforts of Long-Term Care Ombudsmen as reported by each State Long-Term Care Ombudsman program, including data on staffing, facilities and beds, and types of complaints from residents.

- NORS Custom Tables
- NORS Complaints Custom Tables

Title VI Services by Tribal Organization 2002-2016
